

## ACCESSORIES for Sound Level Meter 4431

| Model         | Description                                | Remarks                             |
|---------------|--|-------------------------------------|
| AC7052NR      | Microphone                                 | with PreAMP(20 to 10,000dB)         |
| AC7052R       | Microphone                                 | without PreAMP(20 to 10,000dB)      |
| ACNA-0304     | Windscreen                                 | Φ50                                 |
| ACNA-0301     | Windscreen                                 | Φ90                                 |
| ACNA-0303     | Weatherproof screen                        | Φ200 with tripod                    |
| ACNA-0303     | Weatherproof screen                        | Φ200 without tripod                 |
| AC-1026       | AC adaptor                                 | AC 100 V input. DC 6 V output       |
| ACNA-0333     | Tripod                                     | EX630, made by Velbon Corporation   |
| ACBC-0046-3   | Microphone Cable                           | 3m                                  |
| ACBC-0046-5   | Extension Cable                            | 5m                                  |
| ACBC-0046-10  | Extension Cable                            | 10m                                 |
| ACBC-0046-20  | Extension Cable                            | 20m                                 |
| ACBC-0046-30  | Extension Cable                            | 30m                                 |
| ACBC-0046-50  | Extension Cable                            | 50m with reel                       |
| ACBC-0046-100 | Extension Cable                            | 100m with reel                      |
| ACBC-0046-200 | Extension Cable                            | 200m with reel                      |
| ACBC-0046-300 | Extension Cable                            | 300m with reel                      |
| ACBC-0071     | BNC-Pin Cable                              | 1.5 m                               |
| AC2127        | Acoustic calibrator                        | 94 dB, 1 kHz                        |
| ACBC0038PC    | PC Communication Cable                     | USB type                            |
| ACBC0026      | Communication Cable                        | For printer ACBS2-80TS, RS232C type |
| ACNA-0038     | 1/1 and 1/3 Octave Real time Analyzer Card |                                     |
| ACNA-0038R    | Real Sound Recording Card                  |                                     |
| ACNA-0038F    | FFT Analyzer Card                          |                                     |
| ACBS2-80TS    | Printer                                    | RS232C type                         |
| AC-1016       | AC adpater for Printer                     |                                     |
| ACBS-80-15    | Roll parper for Printer                    |                                     |
| ACNA-0038M    | Data Processing Software within USB Cable  |                                     |
| AC6236-0dB    | Correction function 0dB                    |                                     |
